Tech Stack

- **Languages:** Python, Java (fundamentals), JavaScript
- **Frontend:** HTML, CSS, JavaScript, Tailwind CSS, React
- **Backend:** Node.js, FastAPI
- **Databases:** MySQL, PostgreSQL, MongoDB
- **AI / ML:** Machine Learning, Data Analytics, Local LLM Chatbots (Ollama, Llama 3), AI Agents, Mythril Security Analysis
- **Tools & Platforms:** Git, GitHub, Streamlit, Docker, Netlify, Supabase, VS Code

Achievements & Certifications

- **3rd Place & ₹20,000 Prize:** Team secured 3rd place at the ASTRA MTX Hackathon (10 October 2026)
- **Oracle Certified Foundations Associate:** AI Foundations (OCI 2025), valid until Oct 2027
- **5-Day AI Agents Intensive:** Vibe Coding course by Kaggle & Google
- **Complete JavaScript, Skill Up:** course by GeeksforGeeks
- **Adobe India Hackathon 2025:** Participant (organized by Adobe with Unstop)

Education

B.Tech, Computer Science Engineering
NRI Institute of Technology
2023 – 2027 · CGPA 8.67

Intermediate (MPC)
Sri Chaitanya Junior College
2020 · 812 Marks

SSC
NSSM High School
2018 · GPA 8.2

Languages Known

- Telugu
- English
- Hindi

Profile

Computer Science Engineering student (CGPA 8.67) with hands-on experience in Python, JavaScript, and Java fundamentals. Completed multiple internships and training programs in AI, machine learning, data analytics, and DSA. Built an AI career platform, a smart contract security analyzer, a machine learning app and full-stack web tools. Won 3rd place at the ASTRA MTX Hackathon.

Experience

AI & Machine Learning Virtual Intern
SmartBridge Educational Services Pvt. Ltd., with APSCHE | 2026 · 2 months (120 hours)
- Completed a virtual internship on AI and machine learning fundamentals.

AI & ML Intern
Avishkarana Andhra Summer Internship | 2026 · 45 days
- Worked through core AI and machine learning concepts using applied exercises.

Data Analytics Trainee
Novitech | 2025 · 1 month
- Completed a data analytics certification program with hands-on projects.

Java Programming Intern
InternPe | 2025 · 1 month
- Applied core Java concepts across a series of hands-on programming tasks.

Intern, DSA Mastery with Java
ExcelR
- Completed an internship focused on Data Structures and Algorithms using Java.

Projects

ReTrace: AI-Powered EVM Smart Contract Security & Risk Management Platform
ASTRA MTX Hackathon | 3rd Place
- EVM Bytecode Analysis: examined instructions and their structure.
- Symbolic Security Analysis: integrated Mythril to identify potential security issues.
- Re-entrancy Risk Detection: used structural analysis to flag suspicious control-flow patterns.

Career Compass
AI Career Guidance Platform
- Built a platform for software, government jobs, civil services, engineering, teaching and other career goals.
- Generates a skill gap analysis, personal roadmap, adaptive practice and an AI mock interview for each goal.

End-to-End Machine Learning Web App
Python, Streamlit
- Built and deployed a machine learning app from data to interface, with predictions on a live Streamlit demo.

Portfolio Generator with User Authentication
Node.js, MongoDB
- Developed a full-stack app for generating portfolio content, with user accounts and persistent storage in MongoDB.

GitHub Profile Fetcher
HTML, CSS, JavaScript
- Built a front-end tool that uses the GitHub API to display a user's profile and repository details.

3D Space Tracking
JavaScript | NASA Space Hackathon
- Developed a space-tracking concept that explores 3D visualization of tracked objects.
